

Glam Clam Quilt

Class Information

Hello Las Vegas MQG,

I'm looking forward to meeting all of you for our Glam Clam Quilt class. This document details a bit of pre-work and a few ideas to make our class more effective. Also there are a few pages of layout ideas and a coloring page. The class is designed for you to make either the 8" or 12" Glam Clam. Save the 6" to play with after the class! If this is your first time sewing curves, then I suggest the 12". It is much easier!

This class uses the Glam Clam Quilt Pattern and either the 8" or 12" The Clammy™ templates. You can purchase the pattern and your template before hand from my website at: shop.latifahsaafirstudios.com for 20% off! I've set up a coupon code especially for you: LVMQG.

The pattern includes baby through king sized layouts and you can make any size that you would like. Note that the only quilts that *may* be finished in class will be a baby sized quilt and maybe the lap sized if you're working on a 12". But, you will get a lot done on larger sizes and will go home confident enough in the technique to be able to finish your quilt easily.

Pre-Work

Your pre-work before class is to **cut out your whole clamshells**. This can take awhile and I don't want your whole class to be spent cutting out clamshells. If you can't cut them all out, then at least cut out the first three rows. We will cut out the peripheral shapes - sides, top, bottom, etc during class.

If in fact you get to class and don't have pre-work done or you waited too late to purchase your Clammy template then I'll have patterns and templates in class. Just note, that you'll spend the first hour or so of precious class time cutting.

Layout

If you need layout assistance, feel free to cut out enough to start to lay your quilt out and we will work on layout in class before you start to sew. On the next few pages are some layout ideas for you to think about. Also, there is a coloring sheet for your use.

Feel free to reach out to me at info@latifahsaafirstudios.com if you have questions!

Thanks! And I look forward to meeting you and sewing with you.

Supplies for Class

Supplies:

The Clammy™

Fabric requirements vary by size and are included in the pattern

Coordinating thread for piecing

A few straight pins

28mm Rotary Cutter (especially for the 8" Clammy™)

Cutting Mat

Acrylic Ruler

Optional Supplies:

1/4" foot for your sewing machine

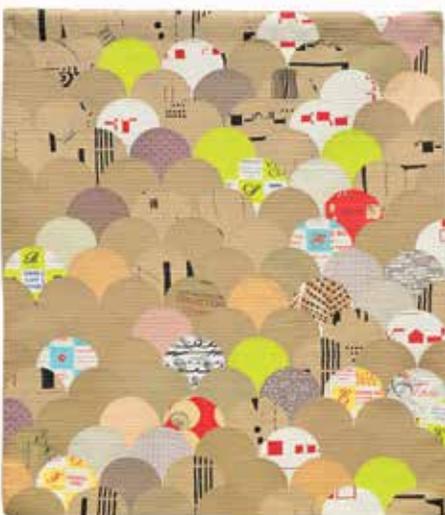

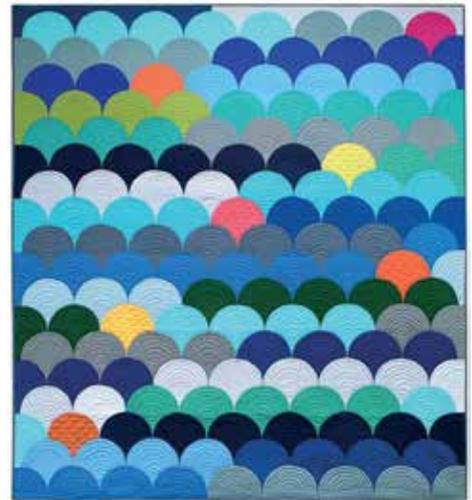

Knee lift - if your machine has one bring it

Stiletto (like The Purple Thing)

Glam Clam Layout Options

There are MANY options for the layout of your Glam Clam quilt! On this page are a few Glam Clams that I have made. On the next page are a few more ideas. On the last page there is a coloring page where you can play and come up with your own layouts!

On the Glam Clam to the right which was designed for Robert Kaufman, clams are grouped with like colors with pops of brights.

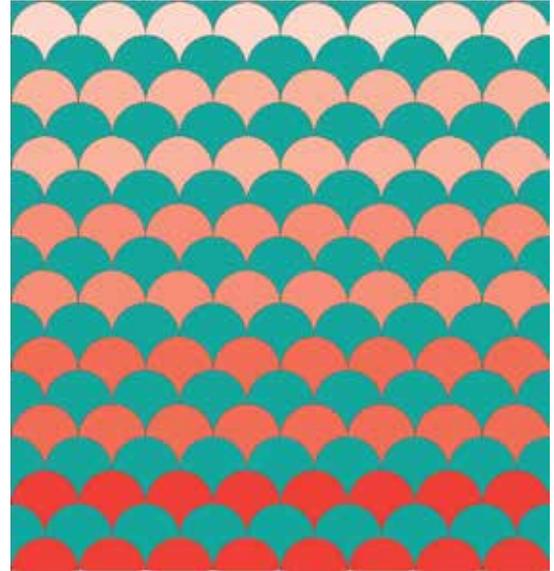

These two pattern cover quilts are both scrappy, scrappy, scrappy! Scrappy is fun and easy and a great layout option for Glam Clam quilts! Neon and Neutral on the left has a strategic selection of tan neutral fabrics with pops of neon yellow, red and blue. First Kiss on the right is just a fun scrappy quilt.

More Layouts

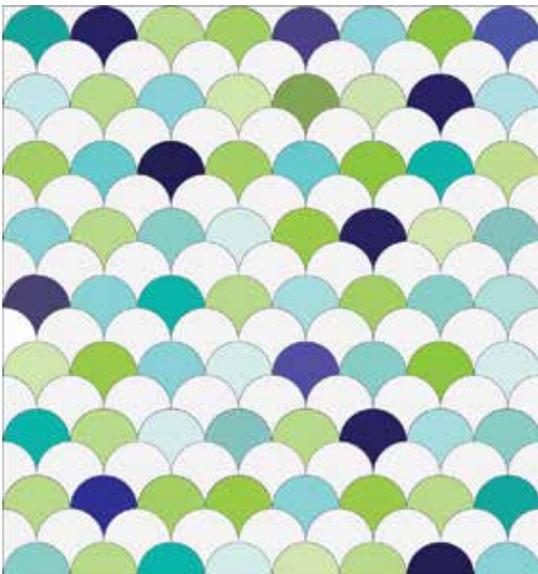

Ombre!!!! Enough said. Each successive row includes a slightly darker color. Can be made with prints or solids.

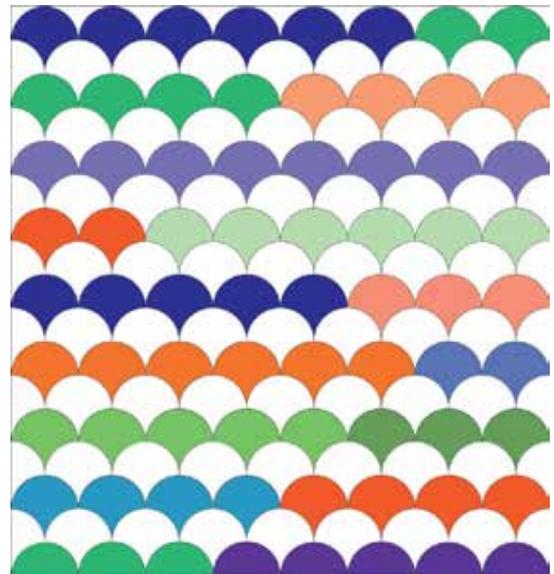

Ombre again. But, this time, every other row has a background color behind it.

Scrappy again with a limited color palette. Once again, every other row is a white background fabric. This is a classic look that a lot of traditional clamshell quilts utilize.

This is a combination of the Kona Glam Clam as well as alternating rows with a background fabric.
